### *Two Months Prior to Wedding Day*

Maintain your perfect wedding day look with a fresh haircut and color re-touch. Begin regular manicure services for the couple to get your hands in flawless condition and ready for those close-up photos of your wedding rings.

### *Two Weeks Prior to Wedding Day*

Enjoy a full-body exfoliation treatment. Update your haircut and color re-touch. We recommend your trial hair and makeup consultation two weeks before your wedding date. Bring your veil, tiara, or hair accessories. Wear a shirt the same shade as your wedding gown so you can see how your makeup will look against it.

### *One Week Prior to Wedding Day*

Get a final trim with a Gentlemen's haircut and facial.

### *On Your Wedding Day*

Your big day has arrived. Relax as our beauty professionals bring your bridal hairstyle and makeup to life. We again recommend wearing a shirt the same shade as your wedding gown. This should also be a button-down shirt to avoid spoiling your hairstyle and makeup when changing into your gown. Should you need a final touch-up, our experts are right here on-site to assist you.
